Coughs—Brown's Bronchial Troches are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use with annually increasing favor. They are a new and useful remedy, having been tested by a wide and constant use for nearly an entire generation, they are a distinct well merited rank among the few staple remedies of the age.

THE THROAT—Brown's Bronchial Troches act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx restoring a healthy tone when relaxed either from cold or over exertion on the voice and produce a clear and distinct enunciation. Speakers and Singers find the Troches useful.

A COUGH, COLD, CATARRH or Sore Throat requires immediate attention as neglect often times results in some incurable Lung Disease. Brown's Bronchial Troches will almost invariably give relief. Imitations are offered for sale many of which are injurious. The genuine Brown's Bronchial Troches are sold only in boxes.

**GRANT'S GREAT SCHEME.**  
A Plan for a Consolidated North-American Republic.

A prominent lawyer now in Washington, discussing the canal question, says: "We are drifting rapidly into a status of being compelled to seize the Isthmus of Panama and hold it in one form or another. Grant has cut out that scheme to control Mexico since the close of the civil war. When he and Sheridan worked on the Mexican case and encountered so much opposition from Andrew Johnson, Grant only changed his views when he found the railroad interests had got in before our physical interference. If his assumption is correct and we mean to assent to the Monroe doctrine and keep France from building the canal why, as sure as you live, we shall have to seize the Isthmus as long as Columbia owns the Isthmus. Do Lesseps and the French can deal directly with that Government, and if we mean to prevent them building the canal we must take the Isthmus. When we get the Isthmus Mexico will have to drop in, and it looks as if five nations would be, within four years, in the General's scheme for a North American Consolidated Republic. Canada is more than half ripe before we want her, and our new relations with the Mexicans, based on money instead of war, will soon make them desirous to enter this Government. Grant," said this person, "has probably shown more tenacity in this Mexican case than in anything he ever went at except an armed enemy in the rebellion."

**Look on this Picture.**

The commercial treaty with China reminds the N. Y. Sun of the condition of American commerce with that country. In 1872 no less than 5,174 vessels, with a collective capacity of 3,471,292 tons, entered and cleared at the treaty ports under the American flag. From that time there has been a steady but rapid decrease, and in 1879 only 931 American ships, with an aggregate tonnage of less than 280,000, are reported from the same harbors as having entered and cleared. The returns of the British shipping engaged in the China trade exhibit at the last named date more than 10,000 vessels, with a total capacity of 8,120,000 tons. Even the Germans, who eight years ago were represented in the China seas by an insignificant fleet, have now gone ahead of the Americans. The annual value of China's foreign trade in 1879 was computed at about \$227,000,000, of which Great Britain monopolized nearly \$183,000,000, leaving less than one-fifth of the whole for all other countries. Of this remnant, France and Germany had each a larger share than the United States. The above is not pleasant, but should be wholesome reading.

**Coming to it at Last.**

Those European nations who have adopted or connived at the non-metallic monetary standard are rapidly receiving their deserved reward. England, France and Germany are feeling the proper financial strain that results from demonetizing silver, and the gigantic fraud that was for years being incubated against the interests of the people is asserting its own logic against the inventors.

The London Times states that the plan of the Bank of France to stop the gold drain by the issue of notes has proved a failure, and intimates that the remedy of France will be to fall back on a silver basis, coaxing such other nations to follow the same course as she may.

This should teach us as a nation to restore silver to its proper functions, and that its coinage should be as unrestricted as that of gold.

The Star and Herald, Panama, says that the steamer Pitpan, running from Greytown to Lake Nicaragua, burst her boilers on the 2d inst., while going over Machuca rapids, Santajan river. Among the killed are Dr. Arguello, Mr. Hongalo, a merchant of Greytown, and a native, name unknown. General Uroches, Administrator of Advance of Greytown was severely scalded and otherwise injured. Several others were scalded more or less severely. The accident caused great distress along the river and may have a bad effect on shipments from Nicaragua by river.

A great many people will be astonished at the statistics and population of Texas. In 1870 the latter numbered 818,899; in 1880, 1,597,509. It contains 274,000 square miles, with varieties of soil and genial climate. It has the richest and finest grazing districts in the world, while every variety of crop is grown with profit. The future of Texas, and the whole rich region north of it, is bright, and it is destined to be the home of an immense population.

**The Mad Stone.**

There are many people in the West who believe in the curative powers of the mad stone. A man who was bitten by a mad dog, near Tecumseh, Neb., travelled all the way to Savannah, Mo., to try the famous mad stone owned by Uncle John Nelson. The stone immediately adhered to the wound, which is said to be proof positive that the patient's blood was poisoned, and remained clinging to the sore from early morning until sundown, when it dropped off. The patient departed feeling that he had been cured. Uncle John Nelson has owned his mad stone since 1848, and has used it in over a hundred cases where men have been bitten. He avers that it never failed to work a cure.

A Chicago Times New York special says: The Branch Irish Land League of the Twenty-first ward of New York has resolved to introduce the system of "Boycotting" as to all goods imported from England. And every member of that Branch League should be boycotted by every good American citizen ever hereafter. If the Irish want to practice Boycotting they had better return to their native land. We have no manner of use for them in America.

A prospectus has been issued in Paris of a submarine telegraph company, the object of which is to connect all Central America with the United States and Europe by cable, with land lines to be laid from Balize to Cuba, Spain having granted a concession therefore. England will guarantee for twenty years the payment of £1,000 annually as the proceeds of government telegrams to and from British Honduras. The capital of the company is £120,000.

The value of punctuation was never more forcibly illustrated than in the case of an apology which was made in Parliament years ago by an Irish member, who, addressing the Speaker, said: "I called him a liar, it is true, and I am sorry for it." This careless clerk punctuated in a such a manner that it read as a reaffirmation, thus: "I called him a liar; it is true, and I am sorry for it."

One of Edison's inventions, in connection with his system of electric lighting is the webometer. This is an instrument for measuring the amount of electricity flowing through a circuit, or in other words, a meter for electric currents to tell the number of webbers that have been supplied.

The Cherry Creek News says: "A large wildcat was killed within the town limits Thursday afternoon. He measured five feet and weighed thirty pounds." That cat must have had a very long tail: or perhaps they measured all the way round and lapped over a little.

Delaware is somewhat Democratic. Its Legislature has passed a resolution authorizing the State to defend before the United States District Court all persons indicted for assaulting United States Marshals or for voting illegally at the last election.

Sitting Bull is still coming in—still surrendering—still starving—still hostile, and still making fools of the United States authorities.

William Behlan, step-father of General Garfield, died January 16th, at his home in Kent county, Michigan, aged 70 years.

**A FAILURE.**  
After the Centennial, the Philadelphians thought to make their exhibition permanent. The first backset with which its managers met was the decision of the Supreme Court which compelled them to pay back the \$1,500,000 which the Government had appropriated as a loan to insure a success of the undertaking. Then there arose a controversy as to whether the exhibition should not be kept open on Sunday; and next a dispute with the City Council about the continued occupancy of the park grounds, which were the property of the public to be used by them for recreative purposes. All these difficulties had been overcome, but the greatest of all was yet to be encountered. The exhibition does not pay, and it is to be abandoned. This can be understood when the reader is informed that there was not enough money in the exhibition treasury to repair the roof of one of the buildings, which was found to be in a leaky condition. The history of the world goes to prove that local, National and International Fairs can be made profitable for short periods of time only.

Among the Indians who visited Washington a couple of weeks since was a full-blooded Sioux named Don't Know How. Two years ago this man was a wild Indian wearing blanket and breech-cloth, long hair, Indian ornaments and more or less paint. Suddenly he decided to become civilized. A change came over him. He threw away his blanket, cut off his hair and sent it, with his brass ornaments and paints, to the Secretary of the Interior as an intimation of the alteration in his life. He then placed twenty-five dollars cash in the hands of Captain Dougherty to be invested in goods with which to establish a store among his people. Two years have passed. Mr. Don't Know How has a stock of goods on hand and paid for worth twenty-five hundred dollars. He has already acquired sufficient education to enable him to write his own letters, and among many valuable souvenirs in the office of Secretary Schurz is an original and unique letter regarding business signed "D.(ONT) K.(NOW) How."

An Ohio paper proposes to number the hours of a day and night consecutively from 1 to 24, or from midnight to midnight, thus doing away with A. M. and P. M. in railway time-tables and elsewhere. The advocate of the proposed new method says there is no more reason for having two 12 o'clocks in one day than there is for two twelve-mile posts in a twenty-four-mile railroad. Under such an arrangement of time theatrical managers would announce "Doors open at 10, performance begins at 20 o'clock." And at 23 o'clock all good people ought to be abed.

There have been 60 cases of small-pox in Union county, D. T., 50 miles east of Yankton, half of which have proved fatal. Both houses of the Legislature have suspended all other business and passed an Act authorizing a rigid quarantine. A private letter says: There are 100 cases near Elk Point, and guards have been placed at all the entrances of the town. No trains stop at Jefferson, and the mails have been discontinued.

A fair and buxom widow, who had buried three husbands, recently went with a gentleman, who, in his younger days, had paid her marked attention, to inspect the graves of her dear departed. After contemplating them in mournful silence, she murmured to her companion: "Ah James, you might have been in that row, now, if you only had had a little more courage."

After a meeting which was attended by 20,000 miners at Leigh, England, Friday, the mob went to the Atheron collieries and a desperate riot ensued. Hussars, infantry and police were on the ground, and the Riot Act was read. The Hussars then charged upon the mob. Several miners and policemen were injured.

A fire Friday morning destroyed the building containing the officers' headquarters of the Department of Arizona at Prescott. Only a small part of the records were saved. There were several iron safes in the building containing money and valuable papers, the contents of which are thought to have been uninjured.

A Chicago Tribune Washington special says: According to reports and documents on hand and forthcoming, in the shape of Jeff. Davis' new book, it is learned that the President of the Southern Confederacy is blindly and insanely jealous of Alex. H. Stephens, who has come to the front while he himself is out of public life.

That was base ingratitude in the Democrats of the Indiana Legislature refusing to give Senator McDonald a complimentary vote for re-election. They nominated one Gray, a renegade Republican, who accidentally became Governor for a few weeks.

**NEWS NOTES.**

The estimated public debt decrease for January is estimated at from \$10,000,000 to \$12,000,000.

The State of Ohio owes a debt of \$6,378,805 30. With the exception of \$1,665 00 this debt is owed in New York City.

Albert and Charles E. Talbot, for the murder of their father have been sentenced to be hanged on the 25th of March, at Marysville, Mo.

Colonel Potter, of the United States Geological Survey, is reported by a detective to have been murdered by three Mexicans in New Mexico, while on duty in the field.

A Western editor, in replying to a subscriber, who complained that his morning paper was intolerably damp, says, "that is because there is so much dew on it."

"Within a month," says the Governor of Kansas, "There will not be a distillery in the State." That will be a very good thing for the States which have distilleries.

The admission was made Thursday in the House of Commons by the Secretary of War that the British force under Sir John Colley had been repulsed by the Boers.

A defalcation of from \$25,000 to \$30,000 have been discovered in the Detroit Michigan Savings Bank. Two tellers are the guilty parties, Charles G. and Herman Ziegler, brothers. They had the unlimited confidence of the bank authorities. They have been embezzling for ten or fifteen years. They belong to an excellent family. Expensive habits and speculations in New York are the cause.

**SUMMONS.**

IN THE DISTRICT COURT OF THE SECOND Judicial District of the State of Nevada, in and for the county of Washoe. The State of Nevada sends to John J. LeVette greeting: You are hereby required to appear in an action commenced against you as defendant by Annie LeVette as plaintiff in the District Court of the Second Judicial District in and for the county of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this summons (exclusive of the day of service), if served in said county, or twenty days if served out of said county, but within said District, and in all other cases forty days, or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover a decree of divorce from the bonds of matrimony between yourself and plaintiff upon the following grounds, viz: that for more than two years last past you have, because of idleness and profligacy, neglected to provide defendant with the common necessities of life and for the further reason that on or about June 7, 1878, (as plaintiff alleges) you did wilfully or without cause desert and abandon her and have ever since continued so to do; all of which will more fully appear from the Complaint which is on file in the office of the Clerk of said Court, at Reno, in said county. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.  
In testimony whereof, I have hereunto set my hand and affixed the seal of said Court, this 31st day of January, A. D. 1881.

TOWN AND COUNTRY.

**Disturbance.**  
There was a small difficulty at the Theatre Comique, on Plaza street, Tuesday night. It appears that some of the boys got a little worse for liquor and in their perambulations took in the show. Out of sheer devilry they raised a disturbance by pulling down the benches, and putting out the lights. Finally one of them kicked over a lamp on the stage, and came very near setting the premises on fire. The light was extinguished, however, before any damage was done. At last Mr. Tracy, the proprietor of the premises, got his ire up and knocked down two of the disturbers and clucked the unruly persons out of doors, and then proceeded with his show as though nothing had happened. Nobody was seriously hurt in the fracas.

**Installation.**  
The following officers of Fidelity Lodge, No. 2, I. O. G. T., were installed by M. E. Cassatt, Lodge Deputy, Tuesday evening: J. M. Flanagan, W. C. T.; Mrs. R. P. M. Greely, W. V. T.; G. E. Holsworth, W. S.; Miss Blanche Leonard, W. A. S.; Geo. E. Hall, W. F. S.; Mrs. M. A. Mosher, W. T.; W. W. Cook, W. M.; Miss Flora Northrop, W. D. M.; Miss Clara Cassatt, W. I. G.; G. G. Brooks, W. O. **Little Bobby Gone!**  
We clip the following from a California exchange: In Colusa, California, December 28, 1880, by the Rev. Thos. A. Adkinson, Robert H. McGinley and Evaline Hodges, both of the Vernet Comedy Company. Bob McGinley is the brother of Mrs. Egleston, of Eureka, and is well known all over the coast, having been for years a popular comedian connected with numberless traveling companies that have visited the mountains and his name is familiar to all old times.

**Trains Levied Upon.**  
For some cause the Central Pacific railroad company refused to pay the tax assessed against it in Lander county Nevada, last year. Recently a judgment was obtained against the company, in that county, for about \$24,000 delinquent taxes. Yesterday the authorities of Lander went to Battle mountain, in that county and levied upon three freight trains and one passenger train.

**District Court.**  
In the case of Dr. Beigman vs. Theodore Winters, administrator of the estate of the late George Heperly, tried Tuesday, the court yesterday rendered judgment for the plaintiff for \$78.  
The Nevada Bank vs. C. S. Varian et al was tried to the court and submitted.

**Prison Bill.**  
Should the prison bill pass and receive the Governor's veto, it will require 17 votes in the Senate and 34 votes in Assembly to pass it over the veto. It will require the vote of three of the Senators who opposed the bill on its passage.

The directors of the N. & O. Railroad received a dispatch from Gov. Woods, yesterday, informing them that the company will be prepared to pay off on the 20th, as per contract, and that there will be plenty of money on hand to go on with the work.

Attention is called to the "Notice" published elsewhere, to those interested in the estate of the late R. H. Crocker, deceased, wherein the administrator has made application to the District Court to sell the real property of said estate.

A TERRIBLE DISASTER.  
FRANKTOWN DESTROYED.

The Great Reservoir Gives way and Carries away the Entire Town—Great loss of Property.

Yesterday, about 4 o'clock p. m. the dam of the great reservoir, in the canyon, above Franktown, gave way and precipitated the whole volume of water down upon the town. When it reached the place the breast of the flood was twenty-five or thirty feet high. As the entire town was situated in the canyon, every building in the place was instantly destroyed and washed away into Washoe Lake, which is situated about a mile below the town. Having a very steep descent down the canyon and four or five miles distance to gather momentum the crash, when it struck the town was appalling, and the sight terrifically grand. The larger buildings were at once crushed in piecemeal, while many of the smaller ones were lifted on the breast of the torrent without falling and all were swept in one promiscuous mass down into the lake. Nothing now remains of the town but a barren and washed out waste. The number of houses and buildings destroyed we are unable to state. Not only was the town destroyed, but all the ranches and farm buildings in the course of the flood, above and below the place. Fortunately, the danger of the dam breaking was apprehended for a day or two previous, and all the families and people had removed from the town the day before. Only watchmen and workmen were left, and they were all warned of the coming torrent in time to escape. Indeed, the roar of the coming waters could be heard for miles, which alone gave timely warning to those who were on the alert. So far as known no lives were lost. How it was with live stock we have not been able, yet, to learn. About one mile of the V. & T. Railroad track was washed away, and covered with debris. Fifteen telegraph poles were torn down. The amount of loss cannot now be estimated. Of course no lighting train or mail came down from Virginia last night, and probably there will be none to-day.

The Baptist Church corner Broad and Spruce streets, and Horticultural Hall, Philadelphia, Pa., were destroyed by fire early Monday. The fire also destroyed a block of adjoining buildings on Spruce street, involving an additional loss of \$30,000. The church was worth \$175,000 and the organ \$7,500. Horticultural Hall cost \$72,000. The total loss is \$210,000. The insurance on the church is \$40,000.

During a storm Tuesday a cloudburst occurred near the residence of John Forster, in Shasta, Cal., tearing away the mountain side and carrying large pine trees clear down the mountain into the public streets. Another slide fell against the back of the residence of E. Voluntine, and filled his house with mud and sand.

An Illinois landlord who took out doors and windows to "freeze out" an objectionable tenant has been convicted of malicious mischief; has had to put the doors and windows back again; will be sued for damages; and will doubtless have to pay for property taken by robbers who entered the unprotected premises.
